

CHANDRA SEKHAR MOHANTY

DEVOPS ENGINEER

Bhubaneswar, Odisha, India | 7077956599 | chandramohanty98@gmail.com

PROFESSIONAL SUMMARY

Experienced DevOps Engineer with **4.8 years** of hands-on expertise in architecting cloud infrastructure, automating CI/CD pipelines, and implementing Site Reliability Engineering principles. Highly proficient in migrating legacy deployments to modern Infrastructure as Code (IaC) using **Terraform** and **Ansible**. Proven ability to handle massive scale, having successfully engineered AWS auto-scaling environments to support over **1,000,000 concurrent users**. Adept at containerization with Docker and Kubernetes, and highly skilled in implementing rigorous chaos testing to guarantee enterprise-grade system resilience.

CORE COMPETENCIES & TECHNICAL SKILLS

Cloud Platforms:	AWS (IAM, EC2, EKS, ECR, OpsWorks, EBS, VPC, ElastiCache, RDS), Amazon Lightsail
Infrastructure as Code:	Terraform, Ansible, Chef
Containers & Orchestration:	Docker, Docker-compose, Kubernetes (K8s)
CI/CD & Deployment:	Jenkins, AWS CodePipeline, AWS CodeBuild, Elastic Beanstalk, Git, Bitbucket, GitLab
Monitoring & Reliability:	Prometheus, Grafana, Datadog, New Relic, Chaos Testing, JMeter
Languages & Databases:	PHP, JavaScript, SQL MySQL, PostgreSQL, Oracle, Firebase

PROFESSIONAL EXPERIENCE

System Engineer (DevOps) | Tata Consultancy Services (TCS) April 2024 – Present | Bhubaneswar, India

- Enterprise CI/CD Automation:** Managed and optimized CI/CD configurations in **Jenkins** for over 70+ applications, ensuring automated, reliable, and scalable deployment pipelines for a major US-based telecommunications provider (Verizon).
- System Resiliency & Chaos Testing:** Performed rigorous chaos testing on critical applications to actively validate system resiliency, persistence, and fault-tolerance during simulated failures.
- Performance Monitoring:** Integrated JMeter and site speed testing into Jenkins pipelines, utilizing **New Relic** for deep observability and performance tracking.
- Containerization Optimization:** Built, refined, and optimized Dockerfiles for selected applications to vastly improve containerization standards, portability, and deployment efficiency.

- **High-Traffic Cloud Architecture (Metahactober):** Designed and provisioned AWS infrastructure (Elastic Beanstalk, CloudFront, ALB) across 3 environments, configuring Auto Scaling to successfully handle load testing for **1,000,000+ users**.
- **Infrastructure Modernization (Pricing Genie):** Spearheaded the migration of application infrastructure from AWS OpsWorks and Chef to modern IaC, utilizing **Terraform** and **Ansible** for streamlined package versioning and deployment across Dev, UAT, and Prod environments.
- **Kubernetes Containerization (Craft CMS):** Built custom Docker images and authored comprehensive Kubernetes deployment YAML manifests, creating standardized, automated deployment flows for developers.
- **Pipeline Development (Kahvay):** Engineered end-to-end CI/CD workflows using GitHub, AWS CodeBuild, and CodePipeline to deploy React and PHP applications seamlessly to Elastic Beanstalk.
- **Server Monitoring:** Monitored high-availability server clusters using **Prometheus** and **Grafana**, actively maintaining logs and generating maintenance reports for international clients.

EDUCATION

Bachelor in Computer Science and Engineering

Trident Academy of Technology (TAT) under BPUT University, Bhubaneswar | 2016 – 2020

Intermediate in Science

Maharishi College Of Natural Law, Bhubaneswar under CHSE Odisha | 2014 – 2016
